## **The Freedom Workshop**

For high school students, educators, community and corporate groups, DBA Studios offers **The Freedom Workshop** – an intensive, single-session workshop combining drama, movement and music in an exploration of freedom.

**A provocative and timely one-day workshop for today's world.**

Using classic and contemporary quotes on freedom, DBA Studios' Teaching Artists guide participants in the creation of an original theatrical performance, followed by a candid discussion on the nature of "freedom."
